Profile

MERN Stack Developer with real-world experience developing responsive and horizontally scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled at creating RESTful APIs, handling backend services, and deploying full-stack applications. Fast learner with a solid background in JavaScript and a focus on clean code, teamwork, and improvement.

Education

- United College of Engineering and Research** Prayagraj, India
B.Tech in Information Technology, CGPA: 7.7 (Till 3rd Year) 2022 – Present
- M.P.M.B. Inter College** Mirzapur, India
Senior Secondary (Class 12), Percentage: 70% 2021
- M.P.M.B. Inter College** Mirzapur, India
High School (Class 10), Percentage: 83% 2019

Skills

- Programming Languages:** C, Java, JavaScript (ES6+)
- Front-End:** HTML, CSS, Bootstrap, Tailwind CSS, React.js
- Back-End:** Node.js, Express.js
- Databases:** MongoDB, MySQL
- Tools and VCS:** Git, GitHub
- Fundamentals:** Data Structures and Algorithms (DSA), RESTful APIs
- Soft Skills:** Leadership Potential, Attention to Detail, Team Collaboration, Problem-Solving, Adaptability, Creativity

Projects

- Swasthya Sathi – Smart Healthcare Platform**
 - Built a MERN-based platform for secure, role-based healthcare management with real-time chat using Socket.io.
 - Integrated JWT authentication, bcrypt encryption, QR-based record access, and real-time alerts.
 - Deployed scalable modules like AI-based symptom checker, medical summaries, and medication reminders.
- Personal Portfolio Website** Live Demo
 - Created a fully responsive portfolio using React.js and Tailwind CSS with modern animations.
 - Showcased projects, resume, and certifications using interactive cards and timeline components.
 - Integrated EmailJS and deployed on Vercel with optimized performance and SEO.
- Hotel-The-Heaven – Hotel Booking** Live Demo
 - Designed a modern hotel booking interface using React.js and Tailwind CSS.
 - Showcased rooms, pricing, and services with responsive layout and dynamic routing.
 - Focused on smooth UX and elegant hover animations for intuitive navigation.

Certifications

- Java (Basic) – HackerRank:** Verified Java fundamentals – control structures, OOP. *Earned: Jul 2025*
- Python (Basic) – HackerRank:** Proficient in Python loops, functions, syntax. *Earned: Jul 2025*
- Problem Solving (Basic) – HackerRank:** Algorithmic problem-solving with DSA. *Earned: Jul 2025*
- Technology Job Simulation – Deloitte (via Forage):** Completed real-world coding simulation. *Completed: Jul 2025*

Achievements

- Selected in **Top 13 teams** in **Hack Diwas** inter college level hackathon.
- Participated in **UHack** intra college level Hackathon, developed end-to-end web solution with team.
- Secured **8th Rank** in Inter-College Chess Competition.
- Earned **3 star** ratings in **Problem Solving, C, and Java** on HackerRank.
